

MAVDA Newsletter

26 June 2023 | Issue 2

As we celebrate the 13-month milestone of our drug accelerator, let us reflect on the remarkable progress achieved as a consortium. Our Annual Research Performance Progress Report (RPPR) and the more recent quarterly progress report to the NIH highlights our strong start and promising prospects for programmatic success. It is crucial that we continue to build upon this early success and remain dedicated to advancing preclinical antiviral drug candidates. Looking ahead, securing the remaining funds approved for years 4 and 5 becomes paramount.

IMPORTANT DATES Mark your calendar for these upcoming dates

July 3, 2023 - DRP/MRP Kick-off meeting (for DRP/MRP grantees and CORE leaders only)

September 2023- Quarterly report (2-3 PPT slides) to NIH-NIAID.

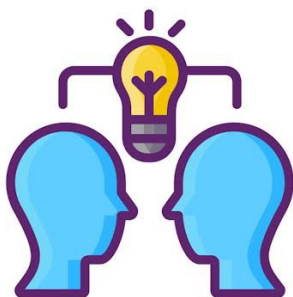

January 25-26, 2024 - Annual Scientific Retreat (In-person).

February 22, 2024 - NIH-NIAID Reverse site visit (Virtual)

Please help us keep the website up-to-date. Share recent publications, patent filings, core capabilities, resources, etc.

Recent Updates

Developmental and Mentored Research Projects

We are excited to welcome the newest members of the MAVDA consortium: the incumbent **DRP and MRP grantees**. These programs will not only stretch our geographic boundaries (from University of Arizona, to Yale and Princeton University), but will also be expand our capabilities, viral target profiles (chikungunya and Yellow fever virus) and state-of-the-art technologies.

Open Science Forum

The Open Science Forum is a virtual, public venue to openly share and disseminate antiviral drug discovery research organized by our AviDD counterpart ASAP. Many antiviral researchers including some of our own investigators are scheduled to present at this forum. The link for registration is posted on our MAVDA website.

CDD VAULT
Complexity Simplified™

Collaborative Drug Discovery

CDD Vault

The rollout for CDD vault is now complete. We strongly urge all cores and projects to actively upload data to the CDD vault for smooth and efficient collaborations. If you need training or assistance, please contact: madhuvika.murugan@hnh-cdi.org
